

YOUR LIFE **YOUR BATHROOM**

GEBERIT ACANTO BATHROOM SERIES

DESIGN
MEETS
FUNCTION

THE BATHROOM THAT MEETS YOUR NEEDS

"My bathroom is important to me. It goes without saying that it has to look good. But for me, clever functions are essential as well. I'm looking for things that can make my day-to-day routine easier, because life is stressful enough as it is. Practical and versatile functions that are tailored to my individual needs and my personal bathroom routine – that's what I'm looking for. A custom-made solution that gives me added convenience and ease of use." With 150 years of experience, we at Geberit know what our customers need in the bathroom. We focus on innovative and practical solutions which look great and make life easier. The Geberit Acanto complete bathroom range combines everything that a modern bathroom has to offer and fashions it with timeless beauty. Individual modules offer individual comfort functions that respond to your needs. Geberit Acanto provides versatile combination options, flexibility and uncompromising refinement. Design your bathroom the way that suits your life – we've already done some of the preliminary work for you. **Geberit Acanto. Designed to work for you.**

FLYING HIGH, BUT WITH MY FEET ON THE GROUND

I need things to move quickly in the mornings. I have a demanding job and there are lots of things I still want to achieve. I check my emails and Facebook while I'm shaving, because it's important to me to keep in touch with my friends. They keep me grounded and give me security when I'm on the move with work again. What's missing? A partner to share my life with. And my bathroom.

THE WORLD IS FULL OF IDEAS

A concert in the evening, an exhibition opening or a meal at our favourite Italian restaurant: when we're getting dressed up to go out, it's important to have the right setting. Culture and design are simply part of our lifestyle – including in the bathroom. We do a lot of travelling, both for business and pleasure. And every time, we bring back ideas and influences that inspire our decor style at home – and in the bathroom.

OUR FAMILY LIFE COMES FIRST

Bit of a squeeze around the bathroom mirror in the morning? Not a problem, because there's nothing better than starting the day with your family – the most important people in the world. It's essential to find the right work/life balance – we spend a lot of time together. And we need a practical bathroom that takes no longer than necessary to clean and tidy.

**I HAVE EVERYTHING UNDER CONTROL.
INCLUDING IN THE BATHROOM**

My current bathroom is tidy and organised. Everything has its own place – I could find my toothbrush and my razor in my sleep. There's a power socket with a USB port on the washbasin, which means that my smartphone is always charged and close at hand. When it comes to the bathroom design, I like clear lines, colours and materials. And my bathroom has such a flexible arrangement that there is room for two people and their separate bathroom routines.

**I WANT A STRIKING LOOK AND
FUNCTIONS THAT IMPRESS ME EVERY DAY**

Our bathroom shouldn't restrict us – we need space. We want distinctive room layouts, modern material combinations and surfaces that are interesting to touch. The Geberit Rimfree wall-hung WC is part of that, along with connections for our digital devices and bathroom furniture that allows us to keep trying out new things.

**OUR BATHROOM PROVIDES STORAGE SPACE
FOR THE WHOLE FAMILY. AND A BIT MORE BESIDES**

Our bathroom has to provide enough space for the whole family. It should be practical, but comfortable as well. We don't need any knick-knacks, but we do want organised storage space for everything that a family needs in the bathroom. We want it to be bright, clean and friendly and prefer solid, traditional materials that are easy to keep clean.

WASHBASINS

The bathroom concept comprises washbasins with a large inner basin and narrow rims or additional shelf surfaces, depending on the size. Furthermore, Geberit Acanto offers washbasins with a small projection as a solution for challenging room architectures and SlimRim washbasins with a particularly lightweight design. All models can be harmoniously combined with the washbasin cabinets.

CLEAR LINES, SLEEK CONTOURS, GENTLE CURVE
The washbasin ceramic appliances in the Geberit Acanto bathroom series combine a large, organically shaped inner basin with a clear outer contour. Depending on the size and design, they either have a narrow rim or additional shelf surfaces. The SlimRim washbasins have a particularly lightweight design with their extra-slim edges. Geberit Acanto washbasins with small projections are the ideal solution for attractive room architectures in small bathrooms.

1 Clear outer contour combined with a large, organically shaped inner basin.

2 The standard washbasins offer large shelf surfaces on the left and right, to have your cosmetics close at hand at all times.

3 Additional shelf surface to let the water drain off.

4 Lightweight design with a slim washbasin edge.

5 Extra-slim edges for challenging room architectures.

5 Practical: Mirror cabinet with innovative features, supplemented by a wall shelf for cosmetics.

1 The tall cabinet with pull-out unit provides well-organised storage space for your cosmetics and bathroom textiles.

2 With the magnet board, you can position storage boxes exactly where you need your cosmetics – and you can change the positions in next to no time.

3 Clever details such as the glass fronts, wood finish and a colour-coordinated profile handle make the bathroom furniture truly special.

4 The additional drawer insert makes the washbasin cabinet even more versatile.

FURNITURE THAT ADAPTS TO YOUR NEEDS

With its versatility and clever functions, Geberit Acanto bathroom furniture gives you creative freedom and real functional added value. The interior is surprisingly adaptable. Well-organised partitions for the drawers of the washbasin cabinets, compartments and shelves on the inside of the mirror cabinet doors create order precisely the way you want it. The innovative mirror cabinet is an ideal beauty centre – with a magnification mirror included. Different washbasin cabinets, tall cabinets, side cabinets and high-level cabinets with various projections, along with a shelf solution and the mirror cabinet, can be combined individually depending on the size of the bathroom and the amount of storage space required. Available in four colour variants: black, lava, sand grey and white.

WC/BIDET

CLOSED CONTOUR FOR PREMIUM-QUALITY BATHROOMS

The WCs and the bidets in the Geberit Acanto series mirror the organic shape of the inner basins of the washbasins, thus forming a harmonious unit with their design counterparts. The WCs feature the Geberit Rimfree design, making them more attractive, more hygienic and easier to clean. The outer contour of both the wall-hung and floor-standing WC is closed and smooth and features no visible fastenings.

WASHBASIN
 · with tap hole, with overflow

CABINET FOR WASHBASIN, WITH ONE DRAWER AND INTERNAL DRAWER
 1 drawer with soft closing, 1 internal drawer, 1 handle; Optional: drawer insert
